WHAT THE AUDIT FOUND

- CRITICAL Raw PHP error printing in page HTML
- CRITICAL Mixed HTTP/HTTPS images causing load failures
- CRITICAL CSS syntax errors breaking site rendering
- CRITICAL Prices hidden via CSS but visible in DOM
- CRITICAL Placeholder image on first shop listing
- HIGH No hero image above the fold
- HIGH Completely different mobile vs desktop header
- HIGH No email capture anywhere on site
- HIGH No testimonials or social proof
- HIGH 36 products with no filtering system
- HIGH Bank transfer only — no card payments
- HIGH No delivery zone info or postcode checker
- HIGH No subscription/box product offering
- MEDIUM All images missing alt text (SEO & accessibility)
- MEDIUM 300px product images — blurry on modern phones
- MEDIUM 3-column shop grid collapses to 1 on mobile
- MEDIUM No recipe section or content marketing
- MEDIUM OG image is a small logo, not a farm photo

THE BASE44 SOLUTION

- Clean build: No WordPress, PHP errors, or patched CSS
- Stripe payments: Card checkout, automated deposit/balance flow
- Cinematic hero: Full-screen farm image with single clear CTA
- Email capture: First-order incentive popup from day 1
- Social proof: Review carousel on homepage & product pages
- Smart shop: Filter by cut, cook method & availability
- Delivery info: Postcode checker on homepage
- Subscription box: Monthly meat box with recurring billing
- Mobile-first: One unified brand on every device
- SEO structure: Product schema, alt text, WOFF2 fonts
- Content hub: Recipe library linked to product pages
- Photography brief: Style guide for consistent imagery

The hidden business problem:

Checkout requires a 75% deposit via manual bank transfer, then a second invoice after dispatch.
In 2026, customers expect to pay once, in full — especially first-time buyers who don't yet trust a new supplier.
